

Sedigheh Monavari

PhD Candidate in Marketing · Warwick Business School, University of Warwick

sedigheh.monavari@warwick.ac.uk · +44 7979 425333

RESEARCH INTERESTS

Topics: Pricing & Promotions · Consumer Health · Digital Platforms ·

Methods: Econometrics · Causal Inference · Machine Learning · LLM Simulation

EDUCATION

PhD in Business and Management

Warwick Business School, University of Warwick

Supervisor: Iman Ahmadi (Associate Professor of Marketing)

2024 – 2027 (*expected*)

Master of Research in Business and Management

Warwick Business School, University of Warwick

2022 – 2024

MSc in Business Administration

Amirkabir University of Technology

2018 – 2021

GPA: 18.3 / 20

BSc in Computer Software Engineering

Sharif University of Technology

2012 – 2016

GPA: 16.3 / 20

RESEARCH

Selected Working Papers

- “Planned vs. Impulse: Discount Format.” (*Job Market Paper, with Iman Ahmadi, Nick Lee and John Rudd*)

This paper examines how planned (future-redeemable) versus immediate discount formats differentially shape consumer spending and purchase behavior. Using a 17-month panel dataset of approximately 45,000 users from a MENA food delivery platform, we show that the two formats operate through different primary intervention points, generating divergent effects on monthly spend and basket value. The findings contribute to the literature on promotional design in digital markets.

- “Beyond Single LLMs: Using Model Ensembles to Improve Synthetic Data in Marketing Experiments.”

With Mohammad Sheikhi, Marco Gregori, and Iman Ahmadi.

This paper utilizes ensembles of large language models to simulate human survey responses. It evaluates the extent to which multi-model synthetic data generation improves alignment with human behavior across a diverse range of marketing experiments.

CONFERENCE PRESENTATIONS

INFORMS Marketing Science (ISMS) Annual Conference

2026

Oral Presentation, Upcoming

“Beyond Single LLMs: Using Model Ensembles to Improve Synthetic Data in Marketing Experiments.”

European Marketing Academy (EMAC) Annual Conference

2023

Poster

“Beyond the Bargain: Deciphering the Complexities of Food Choices in Light of Consumer Identity.”

TEACHING EXPERIENCE

Marketing and Strategy Analytics

Warwick Business School

2024, 2025

Teaching Assistant. Tutorials, problem sets, and grading for a quantitative marketing course (MSc).

Managerial Decision Making

Amirkabir University of Technology

2020 – 2021

Teaching Assistant. Delivered sessions on data-driven decision making; designed and marked assessments (MBA).

Computer Programming

Teaching Assistant. Held weekly Q&A sessions for a programming course (BSc).

Sharif University of Technology 2013

METHODS & SOFTWARE

Causal Inference	Causality, Matching Methods, Panel Data
Machine Learning	LLM Simulation, Ensemble Methods, Neural networks
Programming	Python, R, SQL, MATLAB
Software	Stata, SPSS, PowerBI
